## Our first research fellow, Dr Panagiota Koralli, has arrived in DKFZ, Heidelberg.

Dr. Panagiota Koralli will be working at the German Cancer Research Center (DKFZ) in Heidelberg as a fellow, in order to be skilled in modern diagnostics techniques on small animals.

Dr. – Ing. Panagiota Koralli obtained her Diploma in Mechanical Engineering from the National Technical University of Athens in 2010 and her Ph.D. in Material Science, from the same university in 2016. Since her Ph.D. work, she is cooperating with the National Hellenic Research Foundation.

Her research interests include the development and characterization of thin films, laser-matter interaction, Pulsed Laser Deposition (PLD) and doping of semiconducting metal oxide thin films, thin film based solar cells, chalcopyrite compounds, sol-gel techniques, laser micromachining of thin films for photovoltaic applications, laser induced plasma spectroscopy (LIPS) and electrochemical sensors.

She has participated in one international research project as a young researcher and she has received a postgraduate financial support of the Empeirikeion Foundation for the academic year 2012 – 2013 during her Ph.D., as well as an IKY Fellowship of Excellence for Postgraduate Studies in Greece – SIEMENS PROGRAM as a Post-Doctoral Researcher.

Overall, she has participated in 17 international and 13 national conferences, has 8 publications in refereed journals and 2 book chapters.

Panagiota will be involved in ACCC / Activity 5.
