Expression of Interest for one (1) position of Postdoctoral Researcher

The National Hellenic Research Foundation (NHRF), in collaboration with the German Cancer Research Center (DKFZ) in Heidelberg, Germany, during the framework of a two-year research project titled "Elucidating the interplay between the DNA damage response and repair (DDR/R) network and the mitogen-activated protein kinase (MAPK) signaling system in Multiple Myeloma" invites interested parties to apply for one (1) post-doctoral position, as follows:

NECESSARY QUALIFICATION

Successful candidates should have

- PhD Degree in Molecular Biology,
- experience in modern and advanced techniques of molecular-cell biology (including cell culture, protein purification, Western blotting, RNA/DNA isolation and handling, RT-PCR),
- prior experience with confocal microscopy would be welcome, but is not required,
- publications in peer-reviewed international journals.

The position is based at Heidelberg, Germany for 24 months, with the possibility that part of this period will be spend in Athens, depending on the project needs. The total monthly amount is 2.500€ per month for the Post-Doctoral Researcher.

Interested parties are requested to send a curriculum vitae (and contact information for two letters of recommendation) electronically to:

Dr V. Souliotis (e-mail: vls@eie.gr)

Dr A. Pintzas (e-mail: apint@eie.gr)

Institute of Biology, Medicinal Chemistry and Biotechnology
